Sunderland Wellness Service is proud to launch its new waymarked walking programme, 'Wellness...it's a walk in the park.' Come along to the launch week and get involved!

The Sunderland Active Bus and it's team of Activators will be in attendance at each walk launch event to deliver led walks following the new way marked routes, and to offer free health checks and advice and information to the people attending the walks.

The walks will last between 30-60 mins (depending on their length)

Launch Goodie Bags will be given to all people in attendance as well as all participants being entered into a FREE prize draw.

For further information and to register your interest in taking part in one of the led walks, please contact: **Physical Activity Development Officer on 0191 561 4693.**
